8. INFORMATION ON THE NATIONAL HIGHER EDUCATION SYSTEM			
Higher education Citizens who have general secondary or technical and vocational, or post-secondary education acquire higher education. A citizen has the right to receive free higher education on a competitive basis. Training in degree programs of higher education is carried out in the form of full-time education and (or) external studies. The main types of organizations of higher and (or) postgraduate education are a national research university, a national organization of higher and (or) postgraduate education, a research university, a university, an academy, an institute and equivalent (conservatory, high school). A student who has passed the final certification for the development of the degree program of higher education is awarded the degree of 'bachelor' or is awarded the qualification of 'specialist'. Postgraduate education Citizens with higher education acquire postgraduate education. Postgraduate education is carried out in the master's degree programme, residency and doctoral degree of organizations of higher and (or) postgraduate education, scientific organizations on the main activity profile and areas of staff training, as well as by sending scholars of the Bolashak international scholarship to study at leading foreign organizations of higher and (or) postgraduate education in full-time education in accordance with the list of specialties annually approved in the manner prescribed by the legislation of the Republic of Kazakhstan. Training in the master's degree program is carried out on the basis of degree programs of higher education in two areas: - Scientific & Teacher training degree with a study period of at least two years; - Professionally oriented degree with a study period of at least one year. Training in doctoral degree is carried out on the basis of master's degree programs in two areas: - Scientific & Teacher training degree with a study period of at least three years; - Professionally oriented degree with a study period of at least three years. Persons who have received a master's degree or have mastered degree programs of postgraduate education in military specialties, to obtain the degree of Doctor of Philosophy (Ph.D.), doctor in the professionally oriented program are trained in the doctoral studies of military, special educational institutions for at least three years. Postgraduate medical and pharmaceutical education includes residency, master's & doctoral degree. The residency provides in-depth training in clinical specialties with a duration of training from two to four years, depending on the specialization. The authorized body in the field of health care approves the rules for training medical staff in residency. The list of degree programs of higher and postgraduate education is contained in the register of degree programs. Accreditation of educational organizations Accreditation of educational organizations is carried out on a voluntary basis. Educational organizations obtain institutional and degree program accreditation in accreditation bodies recognized by the Ministry of Education and Science of the Republic of Kazakhstan. The Ministry of Education and Science of the Republic of Kazakhstan maintains a Register of recognized accreditation bodies, accredited educational organizations and degree programs. The National Qualifications Framework of Kazakhstan contains 8 qualification levels, which corresponds to the European Qualifications Framework (EQF) and educational levels.
